James H. Newkirk was born about 1830 in Kentucky and married Nancy Jane Sage. Most of the portraits were taken by a professional photographer and their information is usually printed on the photograph. Some do not have photographer information. Some of the people are identified and others are not. One photograph is an albumen print of an unknown young, but is not a cabinet card. Another photograph of an unknown woman is a silver gelatin print, halftone, cabinet card.

Most of the people in the photographs are identified, but a few are not.

The Snapshot Subseries, ca. 1910s-late 1910s, consists of sixty-six (66) photographs of the Roud family and some of their friends and relatives. Arrangement of the Papers of the Roud Family Collection, Late 1800s-1931, Bulk 1910s

This collection is arranged into two series, the Manuscript Series and the Photograph Series.

The Photographs Series, late 1800s-1930

There are 152 photographs in this collection. The photographs were arranged into seven subseries: Tintypes, Cabinet Cards, Portraits, Contact Prints, Snapshots, Photograph Album and Niagara Falls Subseries. The photographs were put into a particular subseries according to the type of the photograph: tintypes, cabinet cards, contact prints, snapshots, portraits and photographs of Niagara Falls. Photographs from Photograph Album subseries were taken from the original photograph album, kept in their original order and put into archivally sound photograph sleeves. The album was placed in an archivally sound photograph sleeve and piece of acid free tissue paper is between the pages of the album, covering one the photographs. The photographs from each subseries were placed in acid free photograph paper sleeves and each subseries was put into archivally sound folders. Each photograph was described and given an individual number on an itemized list entered into an Excel table.
